Did you know that the Bunbury Dolphin Discovery Centre is a not for profit community group? Our focus is conservation, education and research, where revenue is used to cover operational costs and our research and rehabilitation projects. This fantastic new building was funded by Royalty for Regions Funding and we have done our best to ensure that our operation is as environmentally friendly as possible by hooking up a solar power system, avoiding single use plastics, using green chemicals, recycling, sourcing locally and supporting the conscious coffee drinker philosophy. We are very proud of our Advanced Ecotourism Accreditation and the fact that the Dolphin Discovery Centre is one of the best places in the world to interact with wild dolphins.
